

Dash Board, Activate a new account, choose amongst the buttons to complete a transaction or to check a balance or create one of many stock reports or export to Excel for enhanced reporting. We are able to connect to any other application/POS with custom API's.

Activate Card, create customer profile.

How Coupon center works; A vendor uses the number of visits as a criteria to generate coupons. The number of visits in the drop-down is a list database from active accounts and their activities for that vendor.

1. Select number of visits, dates coupon should be valid, enter amount or points for value of coupon.
2. Generate coupon.
3. Click view recipients if you wish to see recipients select before emailing.
