Multiple shipping locations will incur an additional fee.

Over-Runs / Under-Runs

We offer 2 durable options for alternative tag stocks. One of them is sure to meet your unique needs.

Rite in the Rain®

This stock is an all-weather, environmentally responsible card stock that sheds water when it gets wet. Toners will not rub or wash off. This material is made in the USA and is perfect to protect and keep your valuable information safe.

Vinyl

This stock is a water resistant, durable synthetic stock.

We offer a variety of options for both the Rite in the Rain® and Vinyl options. We can affix a brass eyelet grommet on your tags for increased durability and include attachments with your order (for an additional charge). Either option can be perforated or be made self-laminating. Tags can also be uniquely numbered or personalized.
